

CHAPTER 3

STUDENT ENROLMENT AND GRADUATES

This Chapter represents summary of total number of undergraduate & postgraduate students registered and graduated from universities (15) and HEIs particularly for 2010 while few tables provide trend of data for retrospective years. The number of undergraduate /postgraduate enrolment refers to the count of undergraduate /postgraduate registered for a particular programme as at 31st December of the reference year.

The numbers of graduates (Graduate Output) are those who **successfully completed** the relevant programme during the period of 1st January to 31st December of the reference year. The **successful completion** is defined according to the results released in the reference year.
